

## CLOSING REPORT

April, 2016

### 2016 American Coatings Show Breaks All Records

- April 12–14, 2016 in Indianapolis -

The fifth edition of the American Coatings SHOW (ACS) is now officially the most successful event in ACS history. While having already broken all previous records for exhibit floor size, and number of exhibitors, registration numbers have now broken previous records. Registration remains open throughout the show and the numbers keep growing for the most important event in coatings, paints, sealants, construction chemicals and adhesives industries.

Registration numbers reached 9100 with 559 companies exhibiting in over 130,000 sq. ft. of booth space.

Named to the Fastest 50 list by Trade Show Executive magazine in both 2012 and 2014, the ACS's return to Indianapolis, Ind., from April 12-14, 2016, has continued that trend of successful growth. Organized by the American Coatings Association (ACA) in partnership with Vincentz Network (VN), this year's show has once again brought together the paint and coatings industry's most important decision-makers for a high-level exchange of information.

"ACS 2016 exhibitors have indicated very positive experiences regarding new leads, and a record number of industry professionals are attending this year. We remain committed to our goal of bringing the industry a top-notch platform for business exchange, technological innovation and professional development. Our goal is to continuously increase the quality of the experience for both exhibitors and attendees," said Cheryl Matthews, Vice President, Events & Expositions, for the American Coatings Association.

The American Coatings SHOW & CONFERENCE is the leading North American industry exhibition and conference for the coatings, paints, sealants, construction chemicals and adhesives industry. ACS is organized by the American Coatings Association and Vincentz Network. For additional information visit <http://www.american-coatings-show.com/en/>.
